STRUGGLES WITH DEER; COLLAR BONE BROKEN

Lockmaster A. F. McGowan of North Charleroi Sustains Severe Injury While on Hunting Trip

Suffering with a broken collar bone sustained in a struggle with a deer, A. F. McGowan, lockmaster of Lock No. 4 will be brought home today or tomorrow from Bucks county where he and Harvey Frye of North Charleroi have been hunting for two weeks. Mr. McGowan was generally used up it is stated in the combat.

Details of the occurrence through which Mr. McGowan was injured are that in their previous day's hunt Mr. McGowan and Mr. Frye were out looking for deer, intending to secure one for a trophy before returning home. Mr. McGowan shot one it is stated and wounded it. When he went to claim his game he found it was not dead but very much alive. A strggle followed with the deer and so severe was it that Mr. McGowan sustained a broken collar bone and was otherwise injured. He finally got the deer, however.

Mr. McGowan is said to be pretty much used up and it will take him some time to recover. He and Mr. Frye had been in Bucks county for nearly two weeks and intended to returne within a day or two.

OUT OF JAIL A FEW HOURS; BACK AGAIN

Man With Mania for Taking Things Not His Own, Sent Up for Five Months for Thefts at Local Store

Out of jail but a few hours Harry Smith, as he was registered on the docket coudn't keep away from Charleroi and trouble, and today he is being sent back to begin serving five months Smith's name is Harry Brown this time. He is charged with larceny from the Harper Bros. store. When captured he had a gold-filled watch case in his pocket and efforts are being made to learn whether or not it too was pilfered. Smith or Brown was arrested by Patrolman Gust Brickner after a warant has been sworn out.

About a month ago the man dropped into Charleroi. He entered the tailoring establishment of L. Bedsworth and took a roll of select cloth Later he was arrested by Chief of Police Albright and gave his name as Harry Brown. He changed his name to Smith within a few hours and when he was given a hearing before Justice of the Peace E E. Rice and sentenced to jail for 30 days it was under the name of Smith.

Smith's time was up Wednesday and he was discharged. Apparently he came to Charleroi straight-off and entered the store of Harper Bros. where he seized a robe and walked out. He had on a new suit and an overcoat. Traced to Speers he was finally captured and entered a plea of guilty before Justice of the Peace Rice.

Coach "Joe" Mason has arranged to take all the Lutheran boys who played in at least 12 games to this big Thanksgiving event, as a reward for faithful service during the strenuous championship campaign, when the Lutherans had the proud record of never having out less than 12 men in uniform for every game rain or shine. TRANSFER LICENSE

Charleroi Man Takes Over Moore Hostelry at Millsboro

COURT ORDERS CHANGE

The liquor license of the Hotel Moore at Millsboro, owned by the late James N. Moore, was yesterday after a hearing, transferred to Thomas Madigan, of Charleroi, formerly of Monessen.

Mr. Madigan recently, through Kerfoot W. Daly and J. J. Hott, executors of the estate of J.N. Moore, purchased the hoted at a consideration of $36,000. He paid $23,000 cash and gave a mortgage to secure the balance. Mrs. Alice Moore, the widow in order that the estate might be settled, asked that the license be transferred to Mr. Madigan and Mr. Madigan fild his aplication.

The papers were presented to court last Thursday. After the usual number of witnesses were called yesterday and several letters of recommendation were read, Judge Taylor made the order granting the transfer. The court found that such a transfer was necessary for the settlement of the estate and for the best interests of the decedent's widow.

Appoints Mercantile Appraiser

The county commissioners have selected Thomas C. Luellen of Beallsville for mercantile appraiser. Mr. Luellen is one of the prominent farmers and business men of the eastern side of the county. The work will entail much time and is worth about $800.

Disturbers Sent to Jail.

For disturbing a religious meeting four young men of the Eighth ward in Washington were sentenced by Justice of the Peace Wonsettler to pay a fine of $5 and costs and to serve 20 days in the county jail. The quartet is alleged to have raised a "rough house" at a mission gathering Sunday evening.

New York Central to Reduce Time of Pittsburg -New York Run

THROUGH NEW CASTLE

Double Track to be Constructed Along Route of Branch Line to Sharon

Through a huge railroad deal now being consummated by the New York Central lines the running time from Pittsburg to New York city will be cut down at least two hours. The deal which will center in the region of New Castle, will affect the entire Pittsburg district into which the Pittsburg and Lake Erie, a part of the New York Central lines, has access. With the construction of the Western Maryland tracks to Connellsville and the connection there with the P. & L. E. system, both through the Monongahela valley, and through another route, the deal will be given even more importance.

By the new deal trains will be run from Pittsburg by way of New Castle and Sharpesville, a junction point not far from Sharon in Mercer county by a shorter and more direct line can be approached, it is said by any other railroads. In the deal traffic agreements with the Erie road running a line from New York to Chicago have an important bearing.

The Pittsburg and Lake Erie trains fram Pittsburg now go by way of Youngstown, Ohio to get to New York City, a very roundabout route. They do not go through New Castle, but have a branch line running there. It is proposed to double track a freight line which runs from New Castle, until recently owned by the Erie railroad and to use this as the through trunk line. This will mean the saving of a least two hours time in the trip to New York City.

It is no secret that the Pittsburg & Lake Erie means to get through service to Baltimore and southern points over the Western Maryland line through Connellsville and that the Western Maryland means to get access to northern territory over the P. & L. E. lines. The new deal will have significance to both roads as it will give them opportunity for much development and will give them a hold on much of the trade both north and south from the productive Pittsburg district.

WHY LIVING IS HIGH.

The statement in the press dispatches that the Government is going after the Butter and Egg trusts, which have just boosted the price of butter and eggs, serves to once again call attention to the necessity of removing the obstacles that legislation interposes in the manufacture and sale of oleomargerine. The trust arbitrarily controls the price of butter, and prevents competition by the Government and State taxation that is imposed on a wholesome substitute that if let alone would put the trust out of business.

Pure oleomargerine, which is really more wholesome than most butter from the fact that the process of manufacture destroys all germs which any of the products might contain, could be sold for at least ten or fifteen cents cheaper than butter. Colored with the same material that is used to color high grade creamery butter, oleomargerine would in most cases be preferred to butter at the same price. The law makes it an offense to color the substitute, but the butter makers are permitted to color their product unmolested. Notwithstanding the high tax on oleomargerine there is probably more of it consumed in this country than pure butter. But for the former product the use of butter would be prohibited from the tables of the most of the working people.

According to reliable statements butter is first made by the creamery, sold to a contractor, who in turn disposes of it to the wholesaler, he to the jobber, the latter to distributors or wagon men, and they go to the retailer. This is a long way to go and means a profit to each of the handlers. The tax and restrictions on the manufacture and sale of oleomargerine is what makes this extortion possible.

EVERY LITTLE HELPS.

Every little bit added to what you've got makes just a little bit more, and the projected additions and improvements to the Macbeth-Evans Glass factory in Charleroi will mark a step in advance in the industrial progress of Charleroi. That, with the starting of one furnace at the Pittsburg Plate Glass factory in the near future, will add something to the industrial advancement of the town

The Macbeth-Evans Glass company is by all odds the most stable and important industry that Charleroi has. It employs in the neighborhood of 1,500 people, and has an approximate pay roll of $60,000 a month. It pays weekly and never closes except for a brief period in some departments for repairs or stock taking. The proposed expansion is welcome intelligence, as it will make a good thing better.

PICKED UP IN PASSING

"You would be surprised to see the rivalry among the steamboat men in making quick trips to and from the mines from their dockings in and around Pittsburg," said a well known river man the other day. "A race for the locks is no unusual sight, most any day, and one I always enjoy, for if there is one thing a river man likes it is a steamboat race. This rivalry is not confined to boats of different ownerships, however, as boats of the same line are even more enthusiastic over the matter. Probably the greatest rivalry at present exists between the boats of the Vesta line, owned and operated by the Jones & Laughlin company who own the B. F. Jones, Jr., Henry A. Laughlin, Vesta, Vulcan, Sailor and Titan. The first four are of the compound engine type, using both high and low pressure and the only boats on the river thus equipped at present.

"A few days ago the Henry A. Laughlin, which is practically a new boat, on the run from Lock No. 2 into the Fourth Pool with five empty barges going up and five loaded ones going down, made the round trip in a few minutes short of 14 hours, while the B. F. Jones, Jr. is a close second, falling short but a few minutes. She is destined to break the record most any time, if not to establish a new one.

"You may thing it strange when I speak of hours and minutes in making a trip like this where whole days used to be consumed. Not so, however, when I say that a strict record is kept by those in charge as to the time consumed in entering, passing through and leaving the different locks. As a checkmate to this, those in charge of the locks keep a close tab on the time a boat signals for the lock, the time it enters and the time it leaves. These records are kept and often referred to in case of any difference of opinions as to delays or accidents.

The coal shipping season is now at its height and some quick runs are being made by local steamers. One of the most interesting races was pulled off between the Steamers Braddock and the P. M. Pheil one evening last week at Lock No. 2. The Braddock, Capt. Frank Bowel, won out by a close margin."

A street car man who is employed on a local line tells how once he ate meat taken from a horse. He had been out where a family had been butchering one day and his experience with the new kind of steak came when he was invited to dinner.

"I accepted the invitation to dinner readily," he said. "On nearing the house a savory odor issuing from the kitchen quickened my appetite.

"Seated at the dinner table my host passed me some fine looking steak and I helped myself to a generous portion. Tasting, I found that the savory odor that had come to my nostrils contained only a faint revalation of the real quality of the steak. It was the choicest morsel I thought I ever tasted.

"After dinner my host and I went out to the stable. There on its side lay a dead horse. From a flank had been cut a piece of steak and this was what I had been eating. My host seemed to think it was all right and invited me back to supper, but I declined the honor for obvious reasons. I knew what would be served."

Ingenious Spider Web.

Spiders have a number of ingenious ways of alluring and catching their prey. A writer describes an American spider which haunts evergreen trees, and snares its dinner by means of a kind of lasso. The web of the spider is triangular in form. Two corners of the triangle are attached to twigs, but the other corner, which ends in a single thread, is held by the spider, perched on a neighboring twig. When a fly strikes the web the spider loosens his hold and the elastic threads instantly entangle the victim.

Success Won Early.

Decisive success often is won early in life by stage folk. Dion Boucicault was famous at nineteen as the author of "London Assurance," Nat Goodwin's renown as a mimic was widespread before he was twenty; Edward E. Rice had but turned his majority when he scored with "Evangeline;" Edna Wallace Hopper was in short skirts when she first became an idol of Broadway; George W. Lederer, at the height of his acclaim as a musical comedy producer at the New York Casino was but twenty-seven, and Richard Carle was a full-fledged comedy star at twenty-six.

Give the Reasons.

Sixty members of parliament have signed a letter to Mr. Asquith setting forth the extent to which there is a demand for women suffrage. The letter states that the town councils of Dublin, Glasgow and Dundee have petitioned unanimously for woman suffrage. That four-fifths of the Manchester council have asked for the same and 24 other councils, including Cork, Perth, Bangor and other places, have adopted similar resolutions. There have been 4,420 meetings in the interest of suffrage, three of the largest halls in England having been filled 45 times by those asking for woman suffrage.

Nun Is an Engineer.

When it was recently decided that only licensed engineers could run the furnaces of big plants in Ohio, Sister Louise of the Ursuline Order in Columbus took the examination, as she had long had charge of the furnace and enjoyed the work so much. She was first in a class of fourteen that took the examination, and was very proud of the fact that she could still continue to take care of her furnace.

No, Not the One.

"Please, 'm," says the new maid, in London Opinion, announcing a visitor, "is this the lady you told me always to say you was out to?"

Matter of Choice.

"If you stay at your desk so late and work so hard you'll soon be bent with care." "Well, I'd rather be bent than broke."—Toledo Blade.

Nothing Hard About That.

"A fortune teller told me I'd marry a blonde girl inside six months." "I can easily be a blonde by that time."—New York Telegram.

THEY INJURE CHILDREN

Cathartics and Pills and Harsh Physics May Cause Distressing Complaints

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given. Ordinary pills, cathartics and purgatives are too apt to do more harm than good. They sometimes cause griping, nausea and distressing after-effects and may actually injure the health, thus establishing a life-lasting annoyance.

We personally recommend and guarantee Rexall Orderlies as a safe and dependable remedy for constipation and associate bowel disorders. We have such faith in the virtues of this remedy that we sell it on our guarantee of money back in every instnce where it fails to give entire satisfaction and we urge all in need of such medicine to try it at our risk.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness or othed undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies not only relieve constipation, but help to remove the cause of this ailment. They also frequently overcome the necessity of constantly taking laxatives to keep the bowels in normal condition.

There is really, in our opinion, no similar medicine so good as Rexall Orderlies for the purpose to which it is directed, especially for children, aged and delicate persons. They are prepared in tablet form and in two sizes of packages: 12 tablets, 10c., 36 tablets, 25c., and 80 tablets, 50c. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store Carroll's Drug Store, 623 Fallowfield avenue, Charleroi.

After suffering the terrible agony of rheumatism for ten years, being compelled to use crutches. J. N. Dunn Troy Center, Pa., after all hope had left him, and he had no faith in any remedy, took six bottles of Thompson's Barosma, threw away his crutches and went to work for the first time in ten years.

These statements are absolutely true and the Thompson Medical Co., Titusville, Pa., will prove it. Then why should anyone suffer in the face of such facts? How can those suffer when W. F. Hennings' guarantees to refund the money if a cure is not effected? Thompson's Barosma, 50 cents and $1.00 a bottle. All druggists.

Did You See Brown Today?

Smith recommended him to us yesterday and we fitted him out with a pair of shoes. He was pleased and said: "Never knew there was such a stock of shoes in town." There are hundreds like him. Perhaps you are one of them. If you are, we want to say that, no matter what price shoe you want, we have them, and we can do better by you than any one we know of. Will you look at them? No obligation to buy, but a look at them will convince you that this is the place to buy shoes.

Suffering with a broken collar bone sustained in a struggle with a deer, A. F. McGowan, lockmaster of Lock No. 4 will be brought home today or tomorrow from Bucks county where he and Harvey Frye of North Charleroi have been hunting for two weeks. Mr. McGowan was generally used up it is stated in the combat.

OUT OF JAIL A FEW HOURS; BACK AGAIN

Man With Mania for Taking Things Not His Own, Sent Up for Five Months for Thefts at Local Store

Out of jail but a few hours Harry Smith, as he was registered on the docket coudn't keep away from Charleroi and trouble, and today he is being sent back to begin serving five months Smith's name is Harry Brown this time. He is charged with larceny from the Harper Bros. store. When captured he had a gold-filled watch case in his pocket and efforts are being made to learn whether or not it too was pilfered. Smith or Brown was arrested by Patrolman Gust Brickner after a warant has been sworn out.

About a month ago the man dropped into Charleroi. He entered the tailoring establishment of L. Bedsworth and took a roll of select cloth Later he was arrested by Chief of Police Albright and gave his name as Harry Brown. He changed his name to Smith within a few hours and when he was given a hearing before Justice of the Peace E E. Rice and sentenced to jail for 30 days it was under the name of Smith.

Smith's time was up Wednesday and he was discharged. Apparently he came to Charleroi straight-off and entered the store of Harper Bros. where he seized a robe and walked out. He had on a new suit and an overcoat. Traced to Speers he was finally captured and entered a plea of guilty before Justice of the Peace Rice.

TRANSFER LICENSE

Charleroi Man Takes Over Moore Hostelry at Millsboro

COURT ORDERS CHANGE

The liquor license of the Hotel Moore at Millsboro, owned by the late James N. Moore, was yesterday after a hearing, transferred to Thomas Madigan, of Charleroi, formerly of Monessen.

Mr. Madigan recently, through Kerfoot W. Daly and J. J. Hott, executors of the estate of J.N. Moore, purchased the hoted at a consideration of $36,000. He paid $23,000 cash and gave a mortgage to secure the balance. Mrs. Alice Moore, the widow in order that the estate might be settled, asked that the license be transferred to Mr. Madigan and Mr. Madigan fild his aplication.

The papers were presented to court last Thursday. After the usual number of witnesses were called yesterday and several letters of recommendation were read, Judge Taylor made the order granting the transfer. The court found that such a transfer was necessary for the settlement of the estate and for the best interests of the decedent's widow.

Appoints Mercantile Appraiser

The county commissioners have selected Thomas C. Luellen of Beallsville for mercantile appraiser. Mr. Luellen is one of the prominent farmers and business men of the eastern side of the county. The work will entail much time and is worth about $800.

Disturbers Sent to Jail.

For disturbing a religious meeting four young men of the Eighth ward in Washington were sentenced by Justice of the Peace Wonsettler to pay a fine of $5 and costs and to serve 20 days in the county jail. The quartet is alleged to have raised a "rough house" at a mission gathering Sunday evening.

New York Central to Reduce Time of Pittsburg -New York Run

THROUGH NEW CASTLE

Double Track to be Constructed Along Route of Branch Line to Sharon

Through a huge railroad deal now being consummated by the New York Central lines the running time from Pittsburg to New York city will be cut down at least two hours. The deal which will center in the region of New Castle, will affect the entire Pittsburg district into which the Pittsburg and Lake Erie, a part of the New York Central lines, has access. With the construction of the Western Maryland tracks to Connellsville and the connection there with the P. & L. E. system, both through the Monongahela valley, and through another route, the deal will be given even more importance.

By the new deal trains will be run from Pittsburg by way of New Castle and Sharpesville, a junction point not far from Sharon in Mercer county by a shorter and more direct line can be approached, it is said by any other railroads. In the deal traffic agreements with the Erie road running a line from New York to Chicago have an important bearing.

The Pittsburg and Lake Erie trains fram Pittsburg now go by way of Youngstown, Ohio to get to New York City, a very roundabout route. They do not go through New Castle, but have a branch line running there. It is proposed to double track a freight line which runs from New Castle, until recently owned by the Erie railroad and to use this as the through trunk line. This will mean the saving of at least two hours time in the trip to New York City.

It is no secret that the Pittsburg & Lake Erie means to get through service to Baltimore and southern points over the Western Maryland line through Connellsville and that the Western Maryland means to get access to northern territory over the P. & L. E. lines. The new deal will have significance to both roads as it will give them opportunity for much development and will give them a hold on much of the trade both north and south from the productive Pittsburg district.

WHY LIVING IS HIGH.

The statement in the press dispatches that the Government is going after the Butter and Egg trusts, which have just boosted the price of butter and eggs, serves to once again call attention to the necessity of removing the obstacles that legislation interposes in the manufacture and sale of oleomargerine. The trust arbitrarily controls the price of butter, and prevents competition by the Government and State taxation that is imposed on a wholesome substitute that if let alone would put the trust out of business.

Pure oleomargerine, which is really more wholesome than most butter from the fact that the process of manufacture destroys all germs which any of the products might contain, could be sold for at least ten or fifteen cents cheaper than butter. Colored with the same material that is used to color high grade creamery butter, oleomargerine would in most cases be preferred to butter at the same price. The law makes it an offense to color the substitute, but the butter makers are permitted to color their product unmolested. Notwithstanding the high tax on oleomargerine there is probably more of it consumed in this country than pure butter. But for the former product the use of butter would be prohibited from the tables of the most of the working people.

According to reliable statements butter is first made by the creamery, sold to a contractor, who in turn disposes of it to the wholesaler, he to the jobber, the latter to distributors or wagon men, and they go to the retailer. This is a long way to go and means a profit to each of the handlers. The tax and restrictions on the manufacture and sale of oleomargerine is what makes this extortion possible.

EVERY LITTLE HELPS.

Every little bit added to what you've got makes just a little bit more, and the projected additions and improvements to the Macbeth-Evans Glass factory in Charleroi will mark a step in advance in the industrial progress of Charleroi. That, with the starting of one furnace at the Pittsburg Plate Glass factory in the near future, will add something to the industrial advancement of the town

The Macbeth-Evans Glasscompany is by all odds the most stable and important industry that Charleroi has. It employs in the neighborhood of 1,500 people, and has an approximate pay roll of $60,000 a month. It pays weekly and never closes except for a brief period in some departments for repairs or stock taking. The proposed expansion is welcome intelligence, as it will make a good thing better.

PICKED UP IN PASSING

"You would be surprised to see the rivalry among the steamboat men in making quick trips to and from the mines from their dockings in and around Pittsburg," said a well known river man the other day "A race for the locks is no unusual sight, most any day, and one I always enjoy, for if there is one thing a river man likes it is a steamboat race This rivalry is not confined to boats of different ownerships, however, as boats of the same line are even more enthusiastic over the matter Probably the greatest rivalry at present exists between the boats of the Vesta line, owned and operated by the Jones & Laughlin company who own the B. F. Jones, Jr, Henry A. Laughlin, Vesta, Vulcan, Sailor and Titan. The first four are of the compound engine type, using both high and low pressure and the only boats on the river thus equipped at present.

"A few days ago the Henry A. Laughlin, which is practically a new boat, on the run from Lock No. 2 into the Fourth Pool with five empty barges going up and five loaded ones going down, made the round trip in a few minutes short of 14 hours, while the B. F. Jones, Jr. is a close second, falling short but a few minutes. She is destined to break the record most any time, if not to establish a new one.

"You may thing it strange when I speak of hours and minutes in making a trip like this where whole days used to be consumed. Not so, however, when I say that a strict record is kept by those in charge as to the time consumed in entering, passing through and leaving the different locks. As a checkmate to this, those in charge of the locks keep a close tab on the time a boat signals for the lock, the time it enters and the time it leaves. These records are kept and often referred to in case of any difference of opinions as to delays or accidents

The coal shipping season is now at its height and some quick runs are being made by local steamers. One of the most interesting races was pulled off between the Steamers Braddock and the P M. Pheil one evening last week at Lock No. 2 The Braddock, Capt. Frank Bowel, won out by a close margin."

A street car man who is employed [illegible] tells how once he ate meat taken from a horse. He had been out where a family had been butchering one day and his experience with the new kind of steak came when he was invited to dinner.

"I accepted the invitation to dinner readily," he said "On nearing the house a savory odor issuing from the kitchen quickened my appetite.

"Seated at the dinner table my host passed me some fine looking steak and I helped myself to a generous portion. Tasting, I found that the savory odor that had come to my nostrils contained only a faint revelation of the real quality of the steak. It was the choicest morsel I thought I ever tasted.

"After dinner my host and I went out to the stable. There on its side lay a dead horse. From a flank had been cut a piece of steak and this was what I had been eating. My host seemed to think it was all right and invited me back to supper, but I declined the honor for obvious reasons I knew what would be served"

Ingenious Spider Web.

Spiders have a number of ingenious ways of alluring and catching their prey. A writer describes an American spider which haunts evergreen trees, and snares its dinner by means of a kind of lassoo. The web of the spider is triangular in form. Two corners of the triangle are attached to twigs, but the other corner, which ends in a single thread, is held by the spider, perched on a neighboring twig. When a fly strikes the web the spider loosens his hold and the elastic threads instantly entangle the victim.

I've purty nigh paid off a mortgage with the money I made haulin' automobiles out o' that mudhole."—Christian Register.

Success Won Early.

Decisive success often is won early in life by stage folk. Dion Boucicault was famous at nineteen as the author of "London Assurance," Nat Goodwin's renown as a mimic was widespread before he was twenty; Edward E. Rice had but turned his majority when he scored with "Evangeline;" Edna Wallace Hopper was in short skirts when she first became an idol of Broadway; George W. Lederer, at the height of his acclaim as a musical comedy producer at the New York Casino was but twenty-seven, and Richard Carle was a full-fledged comedy star at twenty-six.

Give the Reasons.

Sixty members of parliament have signed a letter to Mr. Asquith setting forth the extent to which there is a demand for women suffrage. The letter states that the town councils of Dublin, Glasgow and Dundee have petitioned unanimously for woman suffrage. That four-fifths of the Manchester council have asked for the same and 24 other councils, including Cork, Perth, Bangor and other places, have adopted similar resolutions. There have been 4,420 meetings in the interest of suffrage, three of the largest halls in England having been filled 45 times by those asking for woman suffrage.

Nun is an Engineer.

When it was recently decided that only licensed engineers could run the furnaces of big plants in Ohio, Sister Louise of the Ursuline Order in Columbus took the examination, as she had long had charge of the furnace and enjoyed the work so much. She was first in a class of fourteen that took the examination, and was very proud of the fact that she could still continue to take care of her furnace.

No, Not the One.

"Please, 'm," says the new maid, in London Opinion, announcing a visitor, "is this the lady you told me always to say you was out to?"

Matter of Choice.

"If you stay at your desk so late and work so hard you'll soon be bent with care." "Well, I'd rather be bent than broke."—Toledo Blade.

Nothing Hard About That.

THEY INJURE CHILDREN

Cathartics and Pills and Harsh Physics May Cause Distressing Complaints

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given. Ordinary pills, cathartics and purgatives are too apt to do more harm than good. They sometimes cause griping, nausea and distressing after-effects and may actually injure the health, thus establishing a life-lasting annoyance.

We personally recommend and guarantee Rexall Orderlies as a safe and dependable remedy for constipation and associate bowel disorders. We have such faith in the virtues of this remedy that we sell it on our guarantee of money back in every instnce where it fails to give entire satisfaction and we urge all in need of such medicine to try it at our risk.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness or othed undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies not only relieve constipation, but help to remove the cause of this ailment. They also frequently overcome the necessity of constantly taking laxatives to keep the bowels in normal condition.

There is really, in our opinion, no similar medicine so good as Rexall Orderlies for the purpose to which it is directed, especially for children, aged and delicate persons. They are prepared in tablet form and in two sizes of packages: 12 tablets, 10c., 36 tablets, 25c., and 80 tablets, 50c. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store Carroll's Drug Store, 623 Fallowfield avenue, Charleroi.

W. F. HENNINGS.

Fifth Street and McKean Avenue.

EVERYONE NEEDS IT

W. F. Hennings' is Having a Wonderful Sale of Thompson's Barosma the Mighty Kidney and Liver Specific.

And no wonder, when he offers to refund your money if it doesn't cure any disease of the kidneys, liver or bladder, backache, sideache, nervousness or any weakness of the kidneys.

But Thompson's Barosma has made so many almost miraculous cures that W. F. Hennings' is pretty certain not to have any returns.

Here are a few instances:

Frank K. Sturges, Sturtevant, Crawford county, Pa., was cured of Bright's disease six years ago and only took six bottles. He has had no bad symptoms since.

"I had kidney trouble and enlargement of the liver and spleen. I took Thompson's Barosma. The first bottle reduced the measurement around my stomach from 45 to 36 inches, and several bottles completely cured me."—M. S. Langworthy, Tryonville, Pa.

After suffering the terrible agony of rheumatism for ten years, being compelled to use crutches. J. N. Dunn Troy Center, Pa., after all hope had left him, and he had no faith in any remedy, took six bottles of Thompson's Barosma, threw away his crutches and went to work for the first time in ten years.

These statements are absolutely true and the Thompson Medical Co., Titusville, Pa., will prove it. Then why should anyone suffer in the face of such facts? How can those suffer when W. F. Hennings' guarantees to refund the money if a cure is not effected? Thompson's Barosma, 50 cents and $1.00 a bottle. All druggists.

Did You See Brown Today?

Smith recommended him to us yesterday and we fitted him out with a pair of shoes. He was pleased and said: "Never knew there was such a stock of shoes in town." There are hundreds like him. Perhaps you are one of them. If you are, we want to say that, no matter what price shoe you want, we have them, and we can do better by you than any one we know of. Will you look at them? No obligation to buy, but a look at them will convince you that this is the place to buy shoes.
